Skip Austin named Senior Account Manager for the Southeast

Minneapolis-based Radius Track Corporation is pleased to announce Skip Austin as our Senior Account Manager for the Southeast. As both a sub-system design firm and fabricator, Radius Track develops fully-engineered solutions, including comprehensive design services and precision-fabricated material that is delivered job-site ready.

Skip has an in-depth knowledge of Radius Track capabilities and has been intimately involved with delivering that knowledge to contractors, distributors, and architects. His focus is helping customers benefit from the significant value Radius Track provides through our design to fabrication process, from pre-construction through post award.

“Skip is an integral part of our focused efforts in the Southeast. He is dedicated to helping customers find solutions for complex buildings through collaboration with your project team and our design team,” said Radius Track President Bob Krebsbach, “his knowledge and experience make him the perfect candidate to be your first call for solutions to meet your design intent, budget, and schedule.”

Contact Skip to learn how he can help you resolve complex framing design challenges with cost-effective, constructable solutions that range from collaborative virtual design services and CNC bending fabrication to off-the-shelf hand bendable profiles.

Bridge the gap from complexity to constructability.

RadiusTrack is the subject matter expert in designing, engineering and fabricating framing solutions for curved and complex surfaces. Our Design Assist + Precision Fabrication process ensures the accurate translation of your ideas – from design through material delivery.

We are passionate about serving our customers well. Our vast experience with curved and complex surfaces assures that we anticipate potential fabrication and construction issues before they place a project at risk. And we support the project to the finish by delivering concise installation instructions and, most importantly, staying with you until the job is done.

RADIUS TRACK DESIGN ASSIST

The initial phase of our Design Assist engagement is always free-of-charge.
